professional mechanic knows: REPLACE BRAKE PADS LUBRICATE CALIPER

**MC-1600
 MULTIPURPOSE
 CALIPER GREASE
 WORKS UP TO +1.000 °C**

- safety**
- saving**
- comfort**

1 Lubricate ends and back side of brake pads

Reduces brake squeal

Application of a thin layer of grease MC-1600 to back side and ends of brake pads prevents squeal by displacing of frequency range in zone inaccessible by ear

It is your comfort

2 Lubricate piston

Smooth piston movement provides secure brakes operation

Reduces braking distance

safety

3 Lubricate slide pins

Prevents slide pins jamming

General brake lubes with working temperature up to +200 °C solidify after couple of months or wash out. Piston immobilization provides excessive wear of one brake pad, but you have to replace 2 pairs of brake pads. Thanks to high adhesion MC-1600 is resistant to road salt and splash water, and keeps its plasticity during all its life time.

saving

IQNet
 THE INTERNATIONAL CERTIFICATION NETWORK

CERTIFICATE

IQNet and CQS hereby certify that the organization

"VMPAUTO" LLC
 Promyshlennaya str., 40 A
 198099, St.Petersburg, Russia

for the following processes

- Development, production and delivery of greases, remetalizers, foam reagents, sealants, lapping pastes, engine flushes has implemented and maintains a Quality Management System which fulfills the requirements of the following standard

ISO 9001 : 2008

Issued on: 2009 - 12 - 15
 Validity date: 2011 - 09 - 19

Registration Number: CZ - 2223/2008

René Wasmer
 President of IQNet

Vladimir Filin
 President of CQS

This is to certify that
VMPAUTO LLC

is a member in good standing of
NLGI

NLGI is an international trade association dedicated to the common interest of the lubricating grease industry.
 Member Since May 14, 2010

Barbara Bellanti
